

App name:  
**Weather Day**

**What it does:**

Gives a detailed weather forecast for specific days and locations, regardless of when and where

**What makes the app unique:**

- The app shows weather forecast from a new dimension by selecting a specific day
- The app show hour by hour forecast for any day regardless if it's years in the future or in the past.
- Where other apps show blanc we can show the most likely weather by using up to 60 years of historic weather data.

## **Price:**

Free with ads.
